CARD INDEX SYSTEMS AND SUPPLIES

THERE are many forms of records which are best kept on cards. Many firms are still using bound books because they have not had the opportunity of investigating the simplicity of keeping records by the Card Index System.

We have printed a catalogue which shows twenty-one distinct records which may be kept on cards. Card records are easy to handle, are quickly filed and found, occupy very little space, cost less than bound books or loose leaf books.

We will be glad to demonstrate either in your own office or in our salesrooms, the advantage of Card Index Systems as used for keeping stock, purchasing records, ledger accounts, perpetual inventory, lists of customers and any other records which you may have to keep.

Card Index Forms printed promptly to order at very reasonable prices.
